

Hotels Etc. distributorship

How do I accept credit cards?

We integrate PayPal into your website in order to accept credit cards. If you do not have a PayPal account then please [click here](#) to sign up today. We would recommend setting up a business PayPal account however you can start off with a personal account and upgrade later.

Keep in mind, that payments go directly to you and you are responsible to ship out your memberships.

Unique solution ID: #1003
